PROJECTS

Hand Bloom Flowers | HTML, CSS, JavaScript, MediaPipe

- Developed an interactive hand-tracking web application where users can grow stems and bloom flowers using real-time hand gestures.
- Integrated MediaPipe hand tracking to detect hand movements and create an engaging interactive experience.
- Focused on smooth animations, responsive interactions, and an immersive user interface.

Student Task Manager | HTML, CSS, JavaScript

- Developed a task management web application to help users organize daily tasks efficiently.
- Implemented features including task creation, editing, deletion, search, filtering, sorting, dark mode, task statistics, and Local Storage.
- Designed a clean, responsive interface to provide an intuitive and user-friendly experience.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, internship experience, certificates, and developer journey.
- Implemented a modern user interface with smooth navigation, project cards, and responsive layouts.
- Deployed the portfolio using Netlify and continuously improve it by adding new projects and features.
